HARSHIL JANI

Senior Software Developer — Laravel / PHP / Vue.js

+91-8866883937 | har.harshil@gmail.com | Ahmedabad, India (Open to Remote) | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Senior Software Developer with 5+ years of experience building scalable backend systems and full-stack web applications using Laravel, PHP, Vue 3, and Inertia.js. Proven track record delivering multi-role SaaS platforms, real-time logistics and fleet management systems, and secure transactional platforms (healthcare, document management). Strong in REST API design, database architecture, role-based access control, and Agile/CI-CD delivery workflows. Seeking a Senior/Lead Backend or Full-Stack role offering strong compensation and a collaborative engineering culture.

TECHNICAL SKILLS

Languages & Frameworks: PHP, Laravel, CodeIgniter, JavaScript, Vue 3, Inertia.js, jQuery
Database & APIs: MySQL, REST API Design & Development, Database Designing & Optimization
Tools & Practices: Git, Docker, CI/CD Pipelines, Agile/Scrum, AJAX, Bootstrap, Performance Optimization
Cloud & Integrations: AWS (deployment & reporting automation), IMAP mail integration, third-party API/data sync

WORK EXPERIENCE

Senior Software Developer — Iflair Web Technologies Pvt Ltd

Ahmedabad | Oct 2025 – Present

JustFleet — Fleet Management Platform *(multi-role fleet marketplace for vehicle sellers, buyers, and transporters)*

- Led backend development within a 3-member engineering team, building core modules in Laravel, Inertia.js, and Vue 3 for a modern SPA-like experience.
- Designed role-based access control (RBAC) spanning 6 distinct roles — Buyer, Seller, Transporter, Technician, Admin, and Super Admin governing permissions across the platform.
- Built the end-to-end vehicle marketplace workflow enabling sellers to list vehicles and buyers to place competitive bids, reducing manual coordination between parties by 35%.
- Developed admin dashboards and reporting tools giving stakeholders real-time visibility into fleet activity, cutting manual reporting time by 40%.
- Collaborated within an Agile/Scrum workflow with CI/CD-driven deployments, improving release frequency and reducing deployment issues.

Software Developer — Codemink Technology Pvt Ltd

Ahmedabad | Apr 2024 – Oct 2025

TracxTMS — Cloud-based Transportation Management System *(for carriers, brokers, and shippers)*

- Owned end-to-end feature development in Laravel including driver dispatch, real-time load tracking, equipment coordination, and geofencing logic.
- Integrated with multiple third-party systems to sync load statuses, driver data, and geolocation data in real time, improving data accuracy across the platform.
- Optimized legacy modules by upgrading outdated components, improving API response times by 60% and increasing overall system reliability.
- Reduced production incidents by 20% through refactoring and improved error handling on high-traffic modules.

PHP Developer — Vrinsoft Technology Pvt Ltd

Ahmedabad | Sep 2021 – Apr 2024

- Fold & File: Built a document organization system integrating third-party mail servers via IMAP to auto-fetch and categorize documents, improving user productivity.
- Clean Cloud System: Built a reporting automation tool deployed on AWS, enabling scheduled generation and delivery of analytics reports with a focus on scalability and cost-optimized cloud resource usage.
- Salamtak: Developed and maintained a pharmacy management platform handling prescriptions, user profiles, and medicine orders, with secure authentication and order-workflow logic.
- Used Git for version control across all three projects in a multi-developer environment.

Jr. PHP Developer — WeDo WebApps Pvt Ltd

Ahmedabad | Sep 2020 – Sep 2021

- Four Seasons Asbestos Solutions: Designed and customized a responsive company website to showcase services and facilitate client inquiry submissions.
- Built foundational skills in PHP, MySQL, and front-end integration while contributing to client-facing production websites.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Engineering

Alpha College, Gujarat Technological University (GTU), Ahmedabad | May 2010 – Apr 2015
